

DefaultApi

All URIs are relative to *http://localhost*

Method	HTTP request	Description
jmsTopicConsumeJMS1EventConsumeJMSPost	POST /jms/topicConsumeJMS_1/EventConsumeJMS	
kafkaGroup1TopicConsumeKafka1EventConsumeKafkaPost	POST /kafka/group1/topicConsumeKafka_1/EventConsumeKafka	
rabbitmqTopicConsumeRabbitMQ1EventConsumeRabbitMQPost	POST /rabbitmq/topicConsumeRabbitMQ_1/EventConsumeRabbitMQ	

jmsTopicConsumeJMS1EventConsumeJMSPost

jmsTopicConsumeJMS1EventConsumeJMSPost()

Parameters

This endpoint does not need any parameter.

Return type

null (empty response body)

Authorization

No authorization required

HTTP request headers

- **Content-Type:** Not defined
- **Accept:** Not defined

kafkaGroup1TopicConsumeKafka1EventConsumeKafkaPost

kafkaGroup1TopicConsumeKafka1EventConsumeKafkaPost()

Parameters

This endpoint does not need any parameter.

Return type

null (empty response body)

Authorization

No authorization required

HTTP request headers

- **Content-Type:** Not defined
- **Accept:** Not defined

rabbitmqTopicConsumeRabbitMQ1EventConsumeRabbitMQPost

rabbitmqTopicConsumeRabbitMQ1EventConsumeRabbitMQPost()

Parameters

This endpoint does not need any parameter.

Return type

null (empty response body)

Authorization

No authorization required

HTTP request headers

- **Content-Type:** Not defined
- **Accept:** Not defined
